

Matthew Simpson

443-295-5613 | mjsimpson1500@gmail.com | Boulder, CO 80302

Education

University of Colorado

Expected May 2026

Bachelor of Science (BS), Computer Science

Boulder, CO

- **Relevant Coursework:** Intro to AI, Machine Learning, Intro to Cybersecurity, Computer Systems, Discrete Structures, Software Development Methods and Tools, Algorithms, Principles of Programming Languages, Design and Analysis of Databases, Object-Oriented Analysis and Design, Fundamentals of Human Computer Interaction, Data Science with Probability and Statistics

Experience

Blue Elk Vineyard

May 2025 – Present

General Manager

North East, MD

- Maintained properties to ensure optimal presentation and functionality.
- Prepared wedding venues according to client specifications.
- Ensured all client requirements were met for successful event execution.
- Restocked supplies and conducted operational checks during weddings.
- Managed kitchen tasks including food preparation and dishwashing.

Culture Camp AI

Sep 2025 – Present

Primary Front-End Developer

Boulder, CO

- Used Firebase Studio to prototype, build, and deploy website.
- Made a webpage where the attributes of an AI can be edited, and made a page to test how the AI's responses improve.
- Created PRDs, epics, and storyboards for project management.

Projects

Object-Oriented Obsession (Adventure Game)

Java

- Created factories to generate rooms populated with items and monsters.
- Implemented strategy patterns for character and monster behavior.
- Used abstraction to simplify extension and reduce refactoring.

Adopt a Pet!

HTML, CSS, PostgreSQL

- Built a team-based site using the Petfinder API for local and global adoption.
- Designed post creation and explore page functionality.
- Implemented user profiles and database security features.

Exploring Cook County Housing

Python

- Analyzed real-world housing data from Cook County, Illinois.
- Created visualizations and predictive linear models.
- Improved accuracy and fairness through error analysis.

Amazon Warehouse

SQL

- Designed and implemented a relational warehouse database.
- Executed SQL queries to retrieve targeted operational data.

Technical Skills

Languages: Python, C++, Java, JavaScript, HTML, CSS, SQL

Developer Tools: VS Code, JetBrains, Visual Studio, GitHub, Docker

Technologies: Bootstrap, ReactJS
